

**\$avings You won't forget on Cesco's
Rhino-tough Refurb Gearboxes
- Limited Stock only!**

Concrete Owners & operators across Australia are rediscovering the smartest way to maintain older mixer units and upgrade their fleet are with **Cesco's *Rhino tough* Refurbished Gearboxes.**

- **Built Strong**
- **Priced Smart**
- **Engineered to Last**
- **For 8 Wheelers & 6 Wheelers – both types available**

Built from refurbished casings and fitted out with near-new internal workings - gears, bearings, seals, shafts - all near-new rebuilt and tested. You get the reliability of a new gearbox without the price tag or the wait.

The smart, economical alternative to new gearboxes - same performance, same reliability, near-new internals, backed by a trusted refurbishment build process The *Rhino tough* range delivers the strength of a new gearbox at a fraction of the cost.

Consider these essential benefits of the *Rhino tough* 7.5m³ & 6.5m³ Gearbox in upgrading your Mixer: -

- Near-new internal components
- Precision-tested performance
- Huge cost Price \$avings over new replacement Gearbox
- Faster lead times
- Full 12 months warranty on each Gearbox

Ideal for:

- Agi Fleet maintenance
- Emergency replacements & breakdowns
- Demanding operational conditions
- Cost-effective operations

The Refurbished *Rhino tough* Gearbox performs Like New

Your next gearbox doesn't need to cost more — it just needs to perform. *Rhino tough* Refurbished Gearboxes offer unbeatable value, backed by full warranty and back up.

Get new-gearbox performance at a significantly lower cost. Every unit is rebuilt and tested to meet demanding industrial standards.

The *Rhino tough* range was created for owners and operators who demand reliability without unnecessary or extra cost. In industries where machinery never rests, like Agi operations - downtime is expensive and lead times matter. *Rhino tough* Refurbished Gearboxes solve both problems.

Each gearbox begins with a refurbished housing — inspected, cleaned, and prepared for a complete internal rebuild. Inside, every component that needs replacement is replaced with near-new parts - gears, bearings, seals, shafts, and critical internals with nothing compromised.

The result is a gearbox that performs like new, backed by full warranty and priced smarter. *Rhino tough* gearboxes are engineered for owners and operators who remember value, remember reliability, and importantly remember the importance of choosing equipment that lasts.

NOTE: This is a strictly Limited Stock offer.

Early orders will secure access to the full Rhino Tough premium refurbished gearboxes with near-new internals, priority allocation, and the best pricing advantages we've ever released.

Get in now, before all stock is gone!

Save over 1/2 the cost of a new Gearbox!
